Welcome

Thank you for visiting my personal website and downloading this document. As a multi-disciplined accountant with over 30 career years behind me, I have considerable experience as a financial and management accountant, financial controller, credit controller, payroll/HR specialist, systems implementer and project manager. The skills and attributes gained throughout my career are now applied as a professional interim, providing support and succour to all size, shape, and manner of business enterprises throughout the UK.

A commercially minded, forward-thinking problem solver and solutions provider with Prince2 accreditation, I am available as an interim project manager, financial controller, payroll manager and systems implementer. With strong communication and motivational abilities, and sound implementation and negotiation skills, I am an affordable short-term asset to any size business that requires an experienced helping hand. My amiable disposition allows me to integrate quickly and effectively into any environment.

I hope you find the information contained here useful and if you have any further questions please do not hesitate to get in touch with me.

John

Experience

Brought up within the agricultural community, my accounting career commenced in a medium-sized Chartered Accountants practice in Plymouth. My career path migrated into internal audit which gave me unique and invaluable exposure to commercial and industrial markets within large blue-chip corporate environments. The past 20 years has been spent honing my skills and attributes within both the SME marketplace and large corporate bodies. Significant experience has been gained working within the food industry, trauma-hit businesses, and situations requiring delicate investigative work e.g. fraud, acquisitions, or mergers. This experience embraces production, manufacture, wholesale, distribution, retail, export, and agency environments.

Recent roles have included:

- 7 months **Project Manager with Oxford University**, implementing and upgrading new accounting software into 12 subsidiary companies
- 21 months **Interim Finance/Operations Manager** with privately-owned retail fast food chain – turnaround and restructure project
- 30 months **Finance Director** with privately-owned media group – turnaround and restructure
- 15 months **Interim Financial Controller with Hygrade Foods Ltd** – turnaround and restructure project £100m food manufacturer
- 6 months **Interim Group Financial Accountant with Ginsters Ltd** – maternity cover for £250m food manufacturer
- 15 months **Financial Manager** with privately-owned waste management group – turnaround and restructure project

Services

Project Manager

With Prince2 accreditation I am able to offer full project management services utilising where necessary my own software and tools.

Financial Controller

My knowledge and expertise in the application of financial controls and systems has led to me being employed by a number of businesses as a financial controller. Responsibilities have covered restructure and turnaround situations.

Payroll / HR Specialist

I have owned and managed four payroll bureaux throughout the past 20+ years, processing payrolls for SMEs and Corporates. Three of these bureaux have carried full BACS accreditation as independent commercial BACS bureaux. I have separately been a Director of an HR consultancy business.

Systems Implementer

My experience extends to well over 200 implementations of accounting, payroll, human resources, and management information systems into all sizes and sectors of business.

Rates negotiable from £300 per day subject to length of contract, location and on-cost.

Connections

As a professional contractor and business resources provider, I specialise in project management, change management, systems implementations, interim accounting and financial controller roles, payroll management, human resources management and IT consultancy, investigations and business recovery. This can be handled as part of the bigger services provided by **Pentyme Resources Ltd**, established in 2006.

[Visit the Pentyme Resources website.](#)

A payroll and BACS bureau established over 20 years ago, **J C Martin & Associates** also provides accounting, taxation, computing and consulting services to a wide range of businesses throughout the UK.
